18-HOUR CHICAGO FOUR LINERS IN TRAIN FEASIBLE. A RIVER RACE.

Whether or Not Central Ocean Greyhounds and Will Put it on, Merely a Matter of Public Demand.

"The eighteen-hour train to Chicago is merely a question of public demand." said George H. Daniels, General Paswho returned from Cleveland this morning after a test trip which demonstrated the feasibility of cutting six hours off the Holland-American line; the Rhein, of the Holland-American line; the French steamship La Bretagne and the coastwise steamer Mrs. Marguerite de Fritsch "If the public wants this train and Bermuda, of the Quebec Steamship

and Chicago.

If the public wants this train and will pay the price we will put it on, and in a hurry, too. As far as the Central was concerned we were certain of our ability to maintain a speed of sixty miles an hour over our system.

It had been whispered around the river and began their voyages. It had been whispered around the river front all morning that the starting of four steamships at once would likely shore can keep the pace. I was on my

Shore can keep the pace. I was on my cause a race for the Hook, and the way to Cleveland with W. C. Brown, rapid movements of the tugs intimated and an ordinary coach. Engine No. 613, way and prevented her swinging around so young a big ten wheel Brook patiern locomo-give, was put shead, with "Gus Mans-tle Bermuda and she did not seen to be field at the throttle. We had a fine making any headway against the other POISONED BY TACK SCRATCH level stretch of roadway, and Mansfield vessels. As soon as the French ship took us over it at a steady average of was fairly under way it was seen that Woman Hurt While at Work in over sixty miles. We did one absolutely she was rapidly overhauling the Gerisvel stretch of fifty miles at the rate man vessels and a cheer went up from the first miles an hour. Another stretch the end of the French line pier that WHITE PLAINS, N.

SERVANT DEAD IN FIRE

Clothing Company, Uptown 127th St. & 3d Ave. Special Sale of Men's Fancy Worsted Suits

They consist of stylish single-breasted Sack Suits, and the materials of which they are made are fine, pure all-wool worsteds, productions of famous mills. There are mostly fancy light colored patterns among them, some darker toned, in stripes, checks, herringbones and the new overplaid effects.

We consider ourselves fortunate in getting this lot-about 1500 suits-from one of the most prominent makers of men's clothes in the country, who wanted to turn his stock into immediate cash, even at a great loss to himself. He very naturally came to us first, knowing that, no matter how fine the quality or how large the quantity, we could easily handle them. Even with the big discount, we hesitated to accept the suits-for 1500 is a mountain of extra stock, in addition to those already on our counters—it is quite as big a stock as any other store carries of all kinds. But we saw the advantage in the purchase for our customers and decided to share the benefits with them. And this is our way—by these exceptional offerings, by performances rather than promises.

will you understand the great success of this business. We spoke of this great lot of suits, in addition to those already here—the showing of other suits is of the Guarantee standard of excellence, made better than the average suit, with more style n them, more satisfactory in every way. \$6.50 to \$20.

Guarantee Clothing Company, UPTOWN 127th St. & 3d Ave.
